## HFC-GOLD High-Flow Nasal Cannula

Comfortable. Versatile. Secure Fit.

### Making it easier for clinicians to make a difference

The HFC-GOLD® High-Flow Nasal Cannula is engineered with both the patient and clinician in mind to provide optimum comfort and ease of use. Its versatile design allows clinicians to apply and adjust the cannula even in the most challenging patient positions. Engineered to achieve a secure fit, the patent pending HFC-GOLD ensures consistent delivery of high-flow oxygen therapy throughout the entire treatment.

- Contoured soft interface delivers superior pressure relief
- Flexible, ergonomically-designed headgear provides a secure and comfortable fit around the face and head
- Multiple adjustment points optimize fit and relieve pressure-related discomfort
- Compatible with wide range of respiratory devices
- Patent pending design
